# Philosophy of the Program

Graceful Beginnings Pre-Kindergarten is a church-based preschool for children ages 3-5 to prepare them to enter kindergarten. We do this through activities that foster social skills, self-help skills and independence, academics, spiritual life, learning readiness, language, creativity, and motor development. We believe that preschool children learn best through experiencing and manipulating materials, so our curriculum is very child-centered and hands-on. Students will be actively engaged in activities to teach letters, numbers, colors, shapes, basic reading skills, and name recognition through the use of centers and manipulatives.

Each week, we will focus our learning around a specific theme, usually one that integrates science, social studies, or the Bible. Within this, students will have opportunities to learn the skills needed for kindergarten. We encourage students to be confident in their abilities, express themselves creatively, relate appropriately to teachers and other children, and never say "I can't!"

Preschool is often a child's first impression of school, and we try our best to have fun while challenging children to work hard and learn more than they think that they can. We want to create children to who love school and are passionate learners.

Graceful Beginnings has two class options:
